

Comparisons between our products and Thai products are as follows:

1. Our products VS Thai market products

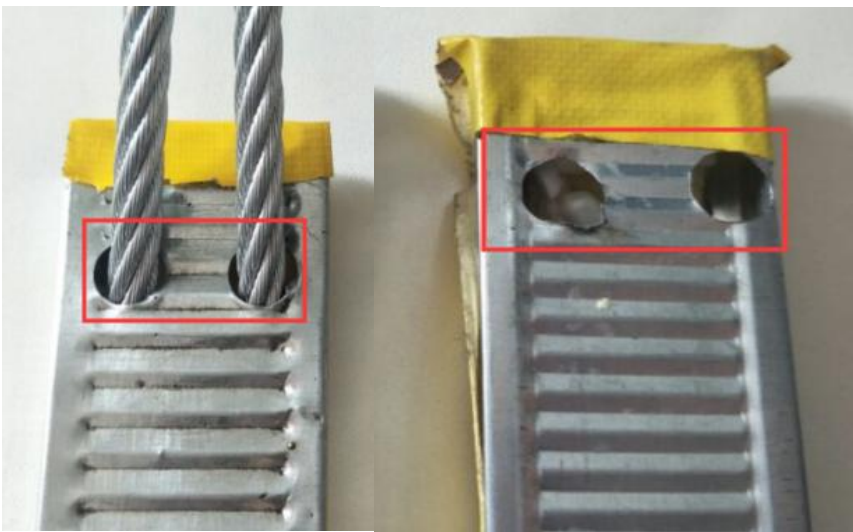

Our pearl cotton is stronger than the market

Normal foam products.

2. Holes

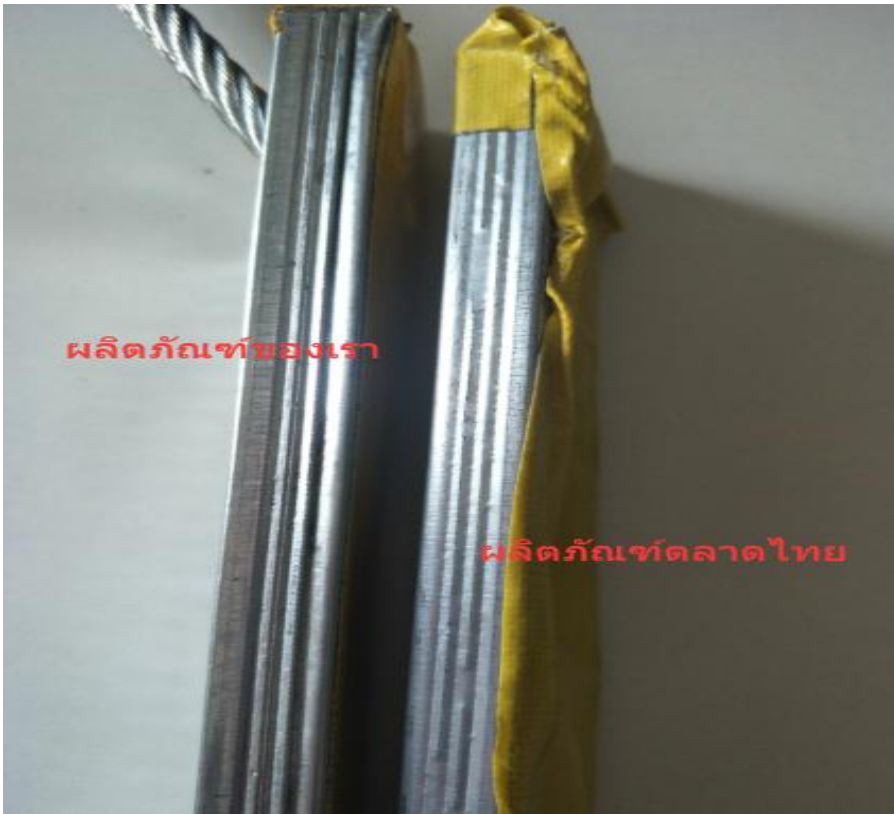

Our hole diameter is more consistent, the hole diameter of the Thai is not neat, get imbalanced. Both beautiful and unbalanced condition without risk of Safety

3. Mold, our products have a very strong space.

The deeper the curve, the deeper the stick and attract the surface more, the result will be better.

4. The surface of our side is quite deep. The quality feels better. The texture of the products in the Thai market is slightly shallow, coarse.

5. Our glue is tougher than Thai products.

6. The plating of our rope is brighter

7. Our products

Thai market products

Our products are a little bigger, use more materials like this, better quality.
